Concerted Action Mapped To Enact Co. Closing Hours

Three Glades Municipalities To Seek Uniform Hours in Western Part Of Co.

Concerted action by Glades municipalities was planned last night in seeking uniform closing hours for liquor establishments in the western section of the county.

Louis Friend, mayor of Pahokee, appeared before the commission meeting here Tuesday night in the city hall and asked the city to cooperate with the plan.

He said: "In Pahokee we have had a prolonged discussion on the question of closing liquor establishments at certain hours. The council finally voted the proposal would drive half a mile to a mile and a fourth to places just outside of the city limits. We feel the action would cause intoxicated drivers to be on the roads at night."

He asked for a letter and support on the action stating that he also planned to seek the support of South Bay.

City Attorney Claude Jones pointed out that if the state law were enforced, all establishments in the state would be forced to close during the same hours.

Commissioners voted to cooperate with the plan either by writing a letter to the county commission, by sending representatives to a meeting or by carrying out both actions. They generally agreed that representatives from the three municipalities should meet prior to appearing before the county board in order to consolidate their plans.

Mrs. C. W. McDonald, city clerk and playground supervisor, proposed that the commission of the land between the city hall and the old post office building, formerly dedicated to the city for park purposes, be developed into a combination parking area for city employees and small playground. She asserted that by parking cars in this way on the lot, traffic and parking congestion would be alleviated in back of the city hall.

She said the area could be beautified and equipped with several playground pieces for a very nominal cost. Commissioners agreed to the plan. They also instructed the attorney to draw a resolution changing the name of the city park to the corner of Main, St. and Ave. E from Paradise Park to Belle Glade Municipal Park.

A discussion of intraparty quarreling was held when Mrs. McDonald questioned the charges of the Street Department to the Park Department for rent.

REV. PETRIE TO ATTEND DIOCESE CONVENTION
The Episcopal Churches of the Glades will be represented next week at the annual convention of the diocese of South Florida in Orlando by the Rev. John Clarence Petrie, vicar of the Holy Nativity Church, Pahokee, and St. Martin's Church, Clewiston.

Mrs. Petrie will be the delegate of St. Martin's, Pahokee, and the Woman's Auxiliary of Clewiston at the annual conference of the Woman's Auxiliary which meets at the same time as the general diocesan convention.

Rev. Petrie, who has been in New York this week at the annual convention of the Christian Freedom Foundation, will be back to conduct services next Sunday in his two churches. He will preach on a theme, "How we can keep our children from losing the faith."

REV. CARLTON VISITS JEWISH CENTER HERE

Rev. J. S. Carlton, pastor of the First Methodist Church in Virginia Beach, Virginia, attended Sabbath services at the Jewish Community Center here last Sunday. Rev. Carlton was visiting his brother, H. O. Carlton.

President Harold Rubin welcomed the visitor and expressed hopes that by his next visit the Jewish Center will have a house of worship.

CANCER DRIVE DONATIONS HERE TOTAL \$425

Approximately \$425 in local cancer drive funds had been collected by Tuesday, Mrs. Imogene Fontaine, local drive chairman, reported.

She said that the city will probably exceed its set quota of \$400 before the drive ends Wednesday.

She said that she maintained booths at the local theater last week and mailed out 300 drive letters.

Proceeds of the drive go for maintaining the cancer clinic at St. Mary's Hospital, West Palm Beach, information centers and research.

MEETINGS FOR ELECTION WORKERS SCHEDULED HERE

Election workers will meet Tuesday at 8 p. m. in the Legion Hall here for schooling on procedure.

The meeting will include workers from 13 precincts: 37, Chosen, 38, Belle Glade, 39, South Bay and 40, Lake Harbor.

Also on Tuesday at 5 p. m. a meeting will be held for precinct 33-A workers at the Health Center in the colored section.

This is part of the series of meetings for schooling the more than 300 county workers who will have charge of the May 8 primary voting.

Local Grid Star Signs On Nat. Team

Carroll W. McDonald, son of Mr. and Mrs. C. W. McDonald, was selected to the 1952 National Football League team.

McDonald, a Lions' draft choice, was selected to the football and a pair in track throwing the discus. The local grid star is 22 years old, stands 6 feet 4 inches tall and weighs 225 pounds.

McDonald drew Coach Buddy Parker's attention for his line-play versatility. While listed alternately as a guard and line-backer, he is the seventh rookie signed to date by the Lions.

ROTARY TO HAVE ROTARY ANK MEETING TONIGHT

The Rotary Club will hold its annual Rotary Ann dinner meeting tonight at 8 p. m. in the Clewiston Inn, R. Y. Crech, Sr., president, said this week.

Rotarians entertain wives and guests at the annual program. The dinner will be held at the Clewiston Inn, West Palm Beach, will be marked by ceremonies.

D. C. GARNER JOINS STAFF OF CLEWISTON FIRM

Dock C. Garner, formerly connected with Belle Glade Motors and Lake Buick here, recently joined the sales staff of Christa, Inc. a Chevrolet Oldsmobile Clewiston.

Garner, his wife, the former Patty Yoder of Moore Haven and two children plan to move from the city to Clewiston in the spring at the close of school.

News of Glades Boys and Girls In The Service

Fla. has been awarded his third oak leaf cluster to the Air Force for meritorious achievement in aerial flight over enemy lines in Korea.

Lieutenant Beardsley was member of the 39th Field Artillery Battalion, 34 Division. He is a 1948 graduate of the University of Florida.

The decoration was presented in recognition of Beardsley's service from Oct. 29 to Dec. 11, 1951.

Dear Folks:

Margaret and I want to send you our love for sending us the Belle Glade Herald while we were in the Navy. We indeed enjoyed keeping up with home town folks and doings.

Margaret and I are now living in Athens where we have made our home. This is really beautiful country up here, and especially at this time of year.

C of C Directors Adopt Resolution To Help Merchants

Proposal Asks For Extension Of Ave. A Through To New Bacom Point Highway

In a move to help local merchants, Chamber of Commerce directors this week approved a resolution to the city asking for the extension of Ave. A through to the new Bacom Point Highway.

The resolution asserts that with the completion of the new road connecting Pahokee, Chosen and South Bay, some traffic will bypass the main business district.

There is no road south of the Hillsboro Canal connecting the new highway with Ave. A or South Main St. with the exception of Ave. E where very few business establishments are located and Palm Beach Rd., which is not a business thoroughfare.

Connecting Ave. A with the new road would involve construction of a short piece of road west from the railroad tracks to the resolution point out. Continuation of Ave. A would tend to offset the loss of normal traffic expected with the opening of the new highway.

The resolution, to be presented to the city commission for action at the next meeting May 13, asks that work be completed on the street by the time the new highway is opened to traffic.

Bacom Point Highway is now in its first stages of construction with bridges, culverts and drainage being installed. It will probably be completed within the next eight or nine months.

Adams Committee Plan Barbecue For All Glades Voters

W. A. "Cricket" Cross will be at the fix of a barbecue to be given by Glades voters Saturday afternoon beginning at five o'clock, at the American Legion Hall.

Climaxing his Glades tour from Lake Harbor around the Lake to Canal Point, the Judge will speak to the barbecue eaters.

Beginning at Lake Harbor at 2:30, he will talk to South Bay voters at 3:00, in Pahokee at 4:00, in Chosen at 4:45.

Those who are planning to attend the County Democratic rally Saturday night may come along with their party to listen to the Judge with the taste of his food still fresh.

We may expect a discussion by the Judge on War Control, roads and bridges, as well as other major items usually discussed by gubernatorial candidates.

ELKS REPRESENTATIVES TO ATTEND DIST. MEET

James Baldwin, exalted ruler of the Elks Lodge, and Fred Simmons, secretary, will represent the local lodge at a district deputy meeting at the West Palm Beach Elks Lodge Sunday.

BONDS - BARNS - BRIDGES - BYPASS

WE GOT BONDS - Our County Commission discovered they could borrow money by issuing bonds to be repaid from gas taxes to be collected over ten or fifteen years, thus allowing them the use of the money for much needed improvements throughout the county.

We think that's smart!

WE GOT A BARN - To use his own declaration "Commissioner Paul Rardin is directly responsible for the new barn and the much-needed equipment." The Commissioner built us a barn to house the equipment which he got assigned out here.

We think that's smart!

WE GOT BRIDGES - three of them that wouldn't be a pride to any modern roadway. One of them has been the cause of numerous deaths during the past years.

For the second year now the State Road Board has included in its annual budget funds to replace these bridges. The County must provide rights-of-way.

B. Elliott, John Bollinger, Elbert Stuart and "Big" Henry of Okeechobee County, together with some personal friends in the Glades got the Chairman of the State Road Board after a personal inspection to put these items in the budget. After several deaths at Six-Mile Bridge recently, followed by considerable phoning, wiring and publicity, some blinker lights were installed at Six-Mile Bridge, and we hear steps are being taken to secure rights-of-way.

The subject of using these budgeted funds seems to have been laid aside between deaths.

We do not think that's smart!

BEAUTIFUL SOUTHERN BOULEVARD BRIDGE

This bridge was built with anticipated gasoline tax money which the Glades is paying and will be paying. The bridge cost just about the amount of our share, which we didn't get.

WE GOT BYPASSES!

When the bond money referred to above was being parceled out the Glades got the Great Bypass.

Our Commissioner got less than \$160,000 with which he built Bacom Point Road, when our share of the money received from bonding our share of the gas tax is more than \$600,000. That's based on the State Treasurer's reports of gas taxes paid.

Do you think that's smart?

Our Commissioner says he "will always stand toe to toe with other officials." Maybe he should go around behind them every now and then.

RECRUIT MARINE SGT. SCHEDULED HERE THURS.

A recent change in Marine Corps enlistment rules now permits women Marine applicants to enlist in the Corps provided they can pass or now possess a high school equivalency test certificate, according to Sergeant Winfred R. Dyer, local Marine recruiter.

Sgt. Dyer, who visits the city each Thursday, explained previously women applicants for enlistment in the Marines were required to be high school graduates.

Prospective Marines, both male and female, who are interested in obtaining full information on an enlistment in the Corps may do so by visiting Dyer at the local post office Thursday. His office hours from 2 p. m. to 5 p. m.

CITY RECEIVES \$5,753 CIGARETTE TAX RETURN

The city received \$5,753.03 cigarette tax return from February collections, the State Revenue Department report this week showed.

Other lake municipalities received: South Bay, \$890.98; Pahokee, \$2,302.14 and Clewiston, \$1,889.92.

Of the total \$1,576,437.56, \$301,790.55 went into the general revenue fund of the state.

Working on the theory that almost every member of the family will mull over a novel or book left idly around, the decided to put out a set of four hairpin shaped plastic marks in different colors—blue, green, red and yellow—for various members of the family. These are so light they cling to the page and do not slide out as their heavier predecessors did.

Tabiti started his invention a year ago, and last November he put his product into several of the larger stores in Miami. This week he distributed the sets for handling to local stores including Bell's Pharmacy, Lutz Pharmacy, Sullivan's Pharmacy, Glades Drug Store, Glades 10 and Cents Store, Lamb's Sweet Shop and the Glades Appliance Family sets sell for 15 cents.

He said if his bookmarks go over well, he will feel as though he has done his part toward encouraging domestic harmony in the American home.

Officers Elected By Rice Co-op At Organization Meet

Working Committees Are Appointed By President I. L. Price

At an organizational meeting of the Board of Directors last week, I. L. Price was elected President; George Royal, Vice President and Joe Murphy, Secretary and Treasurer, of the recently formed Glades Rice Growers Cooperative.

After election of officers the Board elected to act with the officers as the executive committee with full powers.

George Royal, Joe Murphy and Dick Johnston were asked to review the proposing by-laws and to make a report on suggested changes if any, at the next meeting.

Leonard, Bob Simonson, Luther Jones, J. D. Johnson and J. W. Turner were appointed as a Building Committee to recommend to the executive committee for drying, milling and storing.

It was decided to give the public until May 1, 1952, to make application for membership in the co-operative, as the mill will be purchased to care for the rice to be grown, and a deadline for planning must be soon so as to give sufficient time to have the facilities ready for the November harvest.

MRS. IVAN HORN ELECTED 6TH DIST. DIRECTOR AT GARDEN CLUB CONVENTION

Mrs. Ivan Horn was honored by being chosen as 6th District Director of the Florida Federation of Garden Clubs at the 26th Annual convention just ended at Tampa.

The Sixth District, with Mrs. George Newsome of Miami as director, received the award for the outstanding work done during the year. The district includes Monroe, Dade, Collier, Broward, Palm Beach, Martin, Okeechobee and Hendry Counties.

Mrs. G. C. Spillers, president of the National Council of Garden Clubs, was an outstanding guest and was guest speaker at the banquet Tuesday evening. She awarded Clewiston Garden Club the National Purple Award for their 1951 Flower Show.

Only two awards are given in one state federation each year. Over 400 state club members attended the event.

Others attending the convention from Belle Glade included Mrs. Luther Jones, president, Mrs. F. F. Hops, delegate, Mrs. Irvin Zumpf, alternate, and Mrs. Donald Kirchman.

Jr.-Sr. Prom Theme Is "Under The Sea"

"Nautical but nice," the annual Belle Glade High School Junior-Senior prom held in the gymnasium Friday night carried out the theme, "Under the Sea."

Dr. John L. Leonard, president of Palm Beach Junior College, opened the program with the benediction. Bobby Kent, junior class president, gave the welcome and Beville Mobley, president of the senior class, gave the response. Principal Frank O. Hobson introduced the guests and Ronnie Cameron served as toastmaster.

The grand march, led by Pat Tatam and "Star Dust" solo on the piano by Miss Betty Lou Browning, English instructor.

Bennie Williams was crowned Queen Mermaid and A. J. Harrell was named King Fish after Mrs. Raymond Wagner and Mrs. Roy Litchfield, junior class sponsors, who were in charge of the prom, drew their numbers.

The grand march, led by Pat Tatam and "Star Dust" solo on the piano by Miss Betty Lou Browning, English instructor.

The auditorium gave the impression of being on the sea bottom with tropical coral fish on the walls and sea green theatrical gauze hanging several inches from the walls and draped from the ceiling. Blue and white lights reflecting on the hangings gave the effect of waves of cardboard.

In one corner was a derelict ship half covered with sand from which soap bubbles floated.

Center attraction was a large clam shell where junior and senior couples posed for photographs in the formal attire.

One side of the entrance into the hall was decorated with cat tails, seaweed and sea grasses and the other was a beach scene with beach towels.

The couples entered, they went through two white capped waves of cardboard.

Banquet tables were decorated with shells, treasure chests, chains old deep sea diver flasks and lanterns not cups. The tables were centered around speakers' table was decorated with a large fish bowl flanked with candles. Place cards and program cards were placed on the tables.

A NEW TWIST

The controversial issue of closing liquor stores at certain hours, which raged here some time ago and ultimately led to the adoption of the present closing hours, recently popped up in our neighboring town, Pahokee.

But the commissioners there, although realizing that the demand for action was strong and that something constructive should be done, voted down the proposal to set hours in the city. They understood, according to Mayor Louis Friend, that people would only have to travel a half a mile to a mile and a half to places outside of the city limits, and, therefore, intoxicated drivers would be on the roads at night.

After voting against the action, the commissioners delved into the issue thoroughly. They did not want to take unreasonable action just to appease a group.

Fully aware of the problems pointed out by the group, they studied the situation and decided to make a constructive move by asking the cooperation of neighboring Glades communities in obtaining uniform closing hours for the western part of Palm Beach County. If the proposal is granted by the county commission, the goal will be achieved and the practice of crossing city limits after hours for a drink will be stopped.

This sounds a little more like a solution than the arbitrary action taken locally. When Mayor Friend appeared at the local commission meeting Tuesday night, he was assured of the support of the local body in seeking the regulation from the county. He stated that he also intends to contact South Bay.

On face value this move seems to be in the right direction, and it will probably accomplish the aims if the county enforces its legislation more thoroughly than does the state in this instance. At present every liquor establishment in the state would be closing and opening for business at the same hours if the state law setting uniform hours were enforced. Obviously it is disregarded.

STATE PLANS WORLD FAIR FOR 1954-55

Florida's many assets and its natural beauties will be accentuated during the 1954-55 World's Fair planned in South Broward and North Dade counties. Its climate, its citrus, its produce, its cattle, its fishing, as well as its water sports, will be promoted to the fullest, according to executive director George R. K. Carter, who is shouldering the main burden of arranging the gigantic show.

"We will have a Seminole Indian village and an alligator farm," he said, "and we will have a rodeo made up of state-grown cattle and native cowboys. Snake Creek, our Southern boundary, is supposed to be widened and if that occurs in time we will have boats, docks and water sports so typical of Florida."

"Our lumber, turpentine, sugar cane and all other products will rate a high place on the exhibition shelves."

"Since oil is now produced down here we plan to have an oil well drilled on our 1,000 acres of Fair property. We hold all rights to the land."

"and bathing beauties—what would a Florida scene be without them?"

"You may be certain that no effort nor expense will be spared to see that Florida gets its rightful place in the sun of the fair."

HUGH MCKEAN NAMED ROLLINS PRESIDENT

Rollins College trustees have announced that Prof. Hugh F. McKean, a member of the faculty, has been named president of the Central Florida school. McKean has been acting president since May 1951 when the board ousted Dr. Paul A. Wagner.

McKean, a Rollins graduate, said he is initiating a program which if pursued with vigor and taste, could make it possible for Rollins to celebrate its diamond jubilee in 1950 with a fund of ten million dollars.

McKean, a Rollins staff faculty member for 20 years, was born in Beaver Falls, Pa. He attended Florida schools and was graduated from Rollins in 1930. He later went to Harvard and Williams College where he received his Master's Degree.

During World War II he was a lieutenant commander in the Navy. He is married to the former Jeanette Greene, Winter Park, a Rollins trustee.

Floridaans will have to "shell out" \$110,000,000 to meet their share of the foreign aid program. State Truman is trying to impose upon them, through the Congress, according to Harold Cole, executive vice president, Florida State Chamber of Commerce. The President asked for \$7,000,000,000 for the fiscal year which will end on June 30, 1953.

"He already has an estimated \$8,000,000,000 previously voted for this purpose, in unexpended funds," Cole added.

Cole also declared that bureaucrats in charge of federal aid spending have smothered all efforts by the Congress to apply Hoover Commission techniques to their program. "The taxpayers should be given a complete and candid accounting of what has been accomplished by the scores of billions of dollars already spent for foreign aid over the past decade."

Cole continued. "One thing I know," Cole added, "the State Department is flooding us with expensive and colorful books trying to get us to 'buy the program.'"

UF COEDS MAKE BETTER GRADES THAN MEN

It may not prove that women are smarter than men, but at the University of Florida, the data is telling.

They lead the men in every scholastic rating, according to figures released this week for the first semester of the current school year by Organizations Advisor H. K. McClelland.

With 4.0 the perfect record, women compiled an overall average of 2.878, while men averaged 2.159. (Honor point averages are based on these numerical weights: 4—A, 3—B, 2—C, 1—D, 0—E.)

Best averages among freshmen were 2.5369 for Delta Delta Delta, and for fraternities it was Tau Epsilon Phi with 2.4115.

J. B. KINCAID NAMED MGR. FLA. SOUTHERN BELL
J. B. Kincaid, South Florida manager for Southern Bell Telephone Company, has been appointed Florida Manager effective May 1.

Mr. Kincaid succeeds A. B. Dooley, who will retire April 30. After a distinguished telephone career of 42 years, most of it in Florida.

C. L. Lott, presently Miami District Manager for Southern Bell, will assume the duties of the South Florida manager, with headquarters at Miami.

Mr. Kincaid, a well-known

Stewing In His Own Juice

McKean, a member of the faculty, has been named president of the Central Florida school. McKean has been acting president since May 1951 when the board ousted Dr. Paul A. Wagner.

McKean, a Rollins graduate, said he is initiating a program which if pursued with vigor and taste, could make it possible for Rollins to celebrate its diamond jubilee in 1950 with a fund of ten million dollars.

McKean, a Rollins staff faculty member for 20 years, was born in Beaver Falls, Pa. He attended Florida schools and was graduated from Rollins in 1930. He later went to Harvard and Williams College where he received his Master's Degree.

During World War II he was a lieutenant commander in the Navy. He is married to the former Jeanette Greene, Winter Park, a Rollins trustee.

Floridaans will have to "shell out" \$110,000,000 to meet their share of the foreign aid program. State Truman is trying to impose upon them, through the Congress, according to Harold Cole, executive vice president, Florida State Chamber of Commerce. The President asked for \$7,000,000,000 for the fiscal year which will end on June 30, 1953.

"He already has an estimated \$8,000,000,000 previously voted for this purpose, in unexpended funds," Cole added.

Cole also declared that bureaucrats in charge of federal aid spending have smothered all efforts by the Congress to apply Hoover Commission techniques to their program. "The taxpayers should be given a complete and candid accounting of what has been accomplished by the scores of billions of dollars already spent for foreign aid over the past decade."

Cole continued. "One thing I know," Cole added, "the State Department is flooding us with expensive and colorful books trying to get us to 'buy the program.'"

UF COEDS MAKE BETTER GRADES THAN MEN

It may not prove that women are smarter than men, but at the University of Florida, the data is telling.

They lead the men in every scholastic rating, according to figures released this week for the first semester of the current school year by Organizations Advisor H. K. McClelland.

With 4.0 the perfect record, women compiled an overall average of 2.878, while men averaged 2.159. (Honor point averages are based on these numerical weights: 4—A, 3—B, 2—C, 1—D, 0—E.)

Best averages among freshmen were 2.5369 for Delta Delta Delta, and for fraternities it was Tau Epsilon Phi with 2.4115.

J. B. KINCAID NAMED MGR. FLA. SOUTHERN BELL
J. B. Kincaid, South Florida manager for Southern Bell Telephone Company, has been appointed Florida Manager effective May 1.

Mr. Kincaid succeeds A. B. Dooley, who will retire April 30. After a distinguished telephone career of 42 years, most of it in Florida.

C. L. Lott, presently Miami District Manager for Southern Bell, will assume the duties of the South Florida manager, with headquarters at Miami.

Mr. Kincaid, a well-known

UNIVERSITY WORKERS OFFER SUGGESTIONS ON FARMING TOPICS

(Editor's Note: Information in this column is from the Agricultural Extension Service of the University of Florida.)

Scientists, requesting the five foot right-of-way in front of the building on Ave. E which is needed for curb and sidewalk installation. She said it is necessary for the membership to act on the proposal. She also said the city should be set outlining services which require intradepartmental charges.

As sweet corn seed loss their viability rapidly, seed purchased the year before will not produce a satisfactory stand. Viability of sweet corn seed more than a year old would be less than 50 per cent.

Flea infestations in yards may be controlled by application of 10 per cent DDT. Dust or 5 per cent chlordane dust to every thousand square feet.

If young pullets are to be kept for the laying flock, it is well to vaccinate them for Marek's disease and Newcastle disease, spacing the vaccinations about 10 days apart.

Shuckworms and scabs are two major causes of pecans falling to fill properly. Both can be controlled by application of sprays developed for the purpose.

when everything is turning green, and all the flowers are beginning to come out. And the people here in Athens have been waiting for a long time.

I was discharged from the Navy the 17th of March at Charleston, as I had my sixteen months duty, and my extended enlistment was also up. I've got that discharge framed and hung out. I'm keeping it handy.

Guess that about all there is to say. — our address is 62 MYRNA COURT, in Athens. Thanks again ever so much for sending us the Herald.

Cordially,
Tom Lloyd
W.F.C. in Athens, a very nice station, I think I'll be soon news editor as soon as I get settled.

Orange Business Falls In Importance In Cal.

California may go out of the orange business completely if the past twenty year trend continues, according to the Florida Farm Bureau research department.

From Department of Agriculture figures the Bureau reveals that orange represent 34.2 per cent of all cash receipts from farming in Florida during 1950, compared with 20.6 in 1930.

By contrast, cash receipts from oranges in California have dropped from 14.6 to 3.4 per cent for the same periods, the Bureau points out.

BUZZARDS ARE MENACE TO GLADES CATTLE.

Glades cattlemen were warned last week of the buzzard menace in force to resist them among cattle and killing calves.

George Young, manager of the Glades Livestock Market, said this year's buzzard season is the worst he has ever seen. He said the buzzards are killing calves and cattle being disposed of at the rendering plant, buzzards are on the hunt for food.

Belle Glade's present closing hours, 8:00 to 12:00 during the week and 8:00 to 1:00 a. m. on Saturdays, were adopted for the Mirco town.

FARMER CO-OP GROUP SETS UP AWARDS TO 4-H AND 4-H CLUBS

The Florida Council of Farmer Cooperatives, meeting in Lakeland recently, agreed to offer a \$500 award to the 4-H club and the 4-H chapter having the best record in the field of cooperation. The two awards are expected to be made during the annual meeting of the organization.

This is the first time the award has been offered to 4-H clubs. The 4-H chapter award was given a similar award this year. The awards are expected to provide trips for members to the annual meeting of the American Institute of Cooperation.

The youth committee, which will work with 4-H and FFA clubs, is composed of Jack Matthews, Trenton, Al Whitmore, Orlando, and Dr. H. G. Hamilton of the University of Florida, Gainesville.

Judges will be Alden Rury, United Fruit Co., Coral Gables, Aubrey Fowler, Live Oak, George Young, Belle Glade, and Paul Simmons, Lake Alfred.

I. L. Price, Belle Glade, president, Marvin H. Walker, Lake Wales, vice-president, Dr. E. W. Wright, Agricultural Extension Service, Gainesville, secretary, Jack Matthews, treasurer, and Al Whitmore, assistant secretary and treasurer.

SUGAR CORP. GRINDING SEASON ENDS TODAY

Harry T. Vaughn, United States Sugar Corp. president and general manager, says the 1951-52 harvest will end today on an optimistic note.

The closing of the grinding season was a relief for the sugar industry, which has been suffering from a general strike of teachers to force a special legislative session to raise teaching salaries.

Southern negroes have been urged by a local negro newspaper to rally behind Senator Richard B. Russell for president, and help protect the south against exploitation and white supremacy. This word came from Leon Lewis publisher of the Record Dispatch, which circulates principally among the negroes.

Commercial fertilizer helps make up plant food losses and is one of the most effective means of improving soils of low natural fertility.

FREEZING POULTRY

By Alice L. Cromarie
Food Conservation Specialist

Delicious fried chicken will be served in many farm homes during the next two months as cockerels are culled from flocks of young birds and put in the frying pan. Even though chicken is served more often than usual, there probably will be a surplus on some farms so, for folks who are interested in freezing surplus fryers, broilers, and older birds, here are some pointers to help them with the work.

In preparing fowls for freezing, give them the same care you would to food you plan to eat.

Avoid over-scalding skin when preparing to pick chickens. Use water that is not boiling—130 to 140 degrees Fahrenheit, or just when simmering gently. It is not enough. After drawing roasters or baking hens, scald in scalding water up to body. Wrap in heavy freezer paper or cellophane, seal, and cover with stockinet. Fryers and fowls should be cut or jointed in manner desired when they are to be cooked.

Flens may be packaged in cartons, or frozen in paper liners, heat-sealed, or they may be wrapped in heavy freezer paper and tape-sealed. Split broilers in half and package with a piece of wrapping paper or wax paper separating the two halves. Wrap would wrap pieces of roasters.

Proper packaging is as important as proper dressing and plucking. If you are making a sandwich with a heat-sealed, is most commonly used and is considered by many to be the best. It is apparent, however, that the place in freezer at zero Fahrenheit, or if being transported to locker plant, stor-

A large card-board box lined with six or eight layers of newspaper on all sides, bottom and top, then closed, will hold the chair until locker storage is reached.

UNIFORM CLOSING HOURS SET FOR LIQUOR STORES

City Commissioners of Belle Glade, Pahokee and South Bay met Thursday afternoon in a joint session at the Belle Glade City Hall to adopt uniform closing hours for liquor establishments in the area.

Belle Glade's present closing hours, 8:00 to 12:00 during the week and 8:00 to 1:00 a. m. on Saturdays, were adopted for the Mirco town.

A resolution signed by the three Mayors requesting the same hours for the west half of the County will be presented to the County Commissioners at the next Monday's meeting for their consideration by Mayor Herman Closs.

wood, Glades art instructor, furnished the patterns for the hall decorations.

Mrs. Stevenson, head of the school cafeteria, had charge of the banquet which included fried shrimp, French fried potatoes, pineapple juice, tossed salad, hot rolls, lime pie and ice tea.

THIS WEEK IN TALLAHASSEE

By J. Kenneth Ballinger

Teachers were back at their desks in Florida this week after a Florida Education Association convention in Miami that seemed to promise them better pay.

Robert Turner of Coral Gables was elected president, succeeding A. L. Vergara. Directors elected included Miss Barbara Ainsworth, Tallahassee; Mrs. Clarice Burns, Tampa; Mrs. Frances Nippert, St. Petersburg; Mrs. Margaret McGill, Jacksonville; Mrs. Pauline Ball, Jacksonville; Hugh Davidson, Miami; Hugh Allsworth, Miami; John Sey, Ocala; and Roy Crosby, Fernandina.

The delegates refused to consider a resolution to force a general strike of teachers to force a special legislative session to raise teaching salaries.

reached 2,793,885 tons worth \$2,866,431.

The distribution of clays, including fuller's earth, totaled 210,842 tons with sales of \$2,017,834.

Gold minerals (tolated to avoid disclosure of individual operations) sold for \$160,000. These minerals included cement, petroleum, limestone, lime, diatomaceous earth, and calcareous marl.

College Of Surgeons Approve Fla. Tumor Clinics

Thirteen tumor clinics financed jointly by the Florida Division of the American Cancer Society in cooperation with private physicians and medical societies have received approval of the American College of Surgeons for maintaining satisfactory standards, it was announced this week.

The announcement of the approved ratings came from the American College of Surgeons following annual inspections, and the American College of Surgeons of the Florida State Board of Health Bureau of Prevention Diseases.

The tumor clinics, which provide diagnostic and treatment services for cancer victims who are unable to afford such care, are located in the following places:

Daytona Beach, Gainesville, Duval Medical Center at Jacksonville, Jackson Memorial and St. Francis Hospital in Miami, St. Petersburg, Tampa, Tallahassee, Pensacola, West Palm Beach, Ocala and Fort Lauderdale.

The tumor clinics work in close cooperation with private physicians in treatment of cancer patients. Private physicians give freely of their time in serving the clinics without compensation. Dr. Parks stated:

Funds are available for treatment of those unable to pay for such service in appropriations made available through the Florida State Legislature and administered through the State Board of Health. Each case is studied to prevent misuse of these funds. Dr. Parks added.

YOUR FAILURE TO REGISTER AND
VOTE IS A VOTE FOR COMMUNISMCarnival of Junkanoo
To Begin Soon in Nassau

In Nassau, Bahamas, on June 13, the strange, weird carnival of Junkanoo will again be held. Every year, from all over the world, visitors come to Nassau for this celebration, a relic of an age-old African ritual which was brought here by the slaves. No one knows how Junkanoo, or Johnny Canoe as it was once called, gets its name. It is supposed that there was a legendary African chief named Johnny Canoe whose prowess was celebrated by this carnival, but no one is sure.

Early in the morning, long be-

fore dawn, Bay Street begins to fill with natives dressed in fantastic costumes. One man is dressed in a suit of red, white and blue with fringed cape, paper and bears atop his head a headpiece which towers twelve feet into the air. Another has an orange fringed paper suit on and his headpiece is a giant turkey, some ten feet high, complete as to feathers and red wattles. Another one has one of the original Johnny Canoe headpieces—a ten foot long sailing vessel which he balances atop his head.

By three o'clock in the morning, Bay Street is filled with a river of costumed natives, all dancing and swaying to the beat of Junkanoo—boom-boom-boom de boom boom, as the drums, the horns and the cowbells keep that rhythm.

Visitors and residents crowd the balconies of the Prince George and Windsor hotels, the flat topped stores and the office windows to watch the scene below.

By nine o'clock, the whole street is as clear of celebrants as though a magic wand had been waved. One Street is jammed from curb to curb—the next, only a straggler heading homeward. Then the onlookers go to one of the hotels or to one of the homes for Junkanoo Breakfast parties.

FLA. FARMERS PROTEST
APRIL POTATO CEILING

Florida farmers, through the Farm Bureau, are protesting Florida's April potato price ceiling of \$4.30 per hundred pounds. The movement was prompted by OPS action in raising price ceilings on Texas potatoes to \$5.50 as a disaster relief measure.

"How Texas will be able to sell five dollar potatoes in competition with Florida growers operating under a ceiling of \$4.30 is not explained by OPS," declared E. W. Lins, Ft. Pierce, Florida Farm Bureau state director. "The absurdity of the situation is that Texas growers will not be permitted to benefit by the higher ceiling in competitive markets, of which there are many, unless the Florida ceiling is raised," he continued.

NORTHERN ATTITUDE MAY
BEHIND INDUSTRY SOUTH

Northern industry is getting irked at its own smoke and noise, and the South may be better off for it.

In part, because of traffic over-crowded living, smoke, noise, and generally unhealthy atmosphere found in old-line manufacturing centers of the Industrial North, new plants and factories are looking elsewhere for a location.

According to Felix Muehlner,

associate research professor at the University of Florida, the government thinks it is wise to spread them out for another reason—possible bombing.

It is a known fact that industrial plants crowded together offer an easier target for bombing than those spread out over large areas.

Other facts brought out by Muehlner in the latest issue of "Research—possible bombing" are the publication of the University's Bureau of Economic and Business Research, show that 70 per cent of the manufacturing centers of the Industrial North are heavily concentrated.

The four regions of the South and West have fewer concentrated manufacturing centers, about 28 per cent.

How does this benefit the South?

A study of the last two census periods of manufacturers, 1939 and 1947, shows that areas of the Industrial North slowed down in rate of growth, while the four South and West areas rose above average.

Muehlner finds this is significant because it indicates a trend towards the location of new industries in the South and West, that is, in areas of little or no regional industrial concentration.

Nor does the University researcher feel that distaste for noise, smoke, and unhealthy conditions, as well as a need for protection against bombings, are the only reasons for southern and western growth.

Other new factors contributing to this development are improved transportation facilities and vehicles and adjusted freight rates. TVA and the Oregon hydro-electric power developments have created new sources of energy. A migration from North to the South and West has provided personnel requirements.

So with the trend toward dispersion, the South and West may feel the industrial growth—and without unpleasant aspects now found in some congested areas of the North.

Local groups, according to Muehlner, are invited by the government to submit plans for greater dispersion of industrial plants. Industry itself for the past decade has been investigating advantages of new plant sites in regions that formerly had little industry.

The University of Florida faculty member feels a real challenge is offered to communities, particularly those in the South and West, to take stock of what they have and to decide what has to be done if industries are desired to improve the economic base upon which individual communities rest.

State Fish Commission Rules
Bream, Crappie To Be Tagged

All bream and crappie taken in the controlled seining program recently adopted for six Florida lakes will be individually tagged with self-destructive metal seals under a ruling adopted by the Game and Fresh Water Fish Commission.

Previously, it had been announced that only fish shipped to Florida markets would be individually tagged. Fish shipped to out-of-state markets were to have been left untagged and placed in sealed and marked containers.

Under the new ruling, all fish, whether marketed in Florida or out-of-state, must be individually identified by a special tag carrying the slogan "Saleable Fresh Water Fish Legally Taken From Managed Florida Waters."

The tags are designed so that they may be used only once, automatically destroying themselves when removed from the fish.

The Commission also adopted a ruling that the tags must remain attached until such time as the fish are being cooked for human consumption.

Tagged fish will be taken only from Lakes Harris, Reedy, Eustis, George, Crescent and Okechobee in Central and South Florida.

The rulings were adopted as an aid to controlling illegal sale of bootleg fresh-water game fish taken from other waters in the state, it was said.

John F. Dequine, chief fisheries biologist, also reported that processing stations for the controlled seining program are being set up at Lakes Harris and George, and that seining will begin this month.

Council For Blind Happy Over State Poster Contest

Officials of the Florida Council for the Blind expressed gratification over results in the statewide poster contest conducted with the cooperation of Lions Clubs in connection with "Sight Conservation Week."

Over 1,000 posters were entered in the contest by Florida school children, it was announced.

Because nearly 99 per cent of our knowledge and information comes to us through the eyes,

the Council says it is important for everyone to bear in mind the slogan "Be Wise—Protect the Eyes."

The winning poster in the statewide contest proclaimed the beauty of nature in a water color and carried the title "A World of Beauty Through Sight Take Care of It."

In a campaign to help prevent blindness the Council sponsors "Sight Conservation Week," as proclaimed by the Governor each year.

CANCER SOC. MAINTAINS
CO. TUMOR CLINIC

One of the greatest services the American Cancer Society's Palm Beach County Unit has rendered is its aid in establishing and maintaining the Palm Beach County Medical Society Tumor Clinic at St. Mary's Hospital, West Palm Beach.

Charles D. Pierce, Jr., the County Unit's fund raising chairman, recently reported 417 doctors and 20 dentists last year donated their services at the Clinic. They treated approximately 700 patients.

All cases treated at the Clinic are referred by attending physicians. The Clinic provides complete medical services including X-ray treatment, surgery and out-patient service.

Medically indigent patients pay nothing. Costs for treatment of the medically indigent are met through the state-aid cancer program. The Palm Beach County Unit ACS donates the Clinic's equipment and important supplies. The County Unit also furnishes the services of its nurse, Mrs. Ann MacWeber, plus board and transportation for indigent out-of-county patients.

Clinic space is furnished gra-

by St. Mary's Hospital. The Clinic consists of three examining rooms, a photographic room (in which is housed the \$700 micro-projector donated by the County Unit) and a complete library.

Mr. Pierce said, "This county's Cancer Unit and the tireless workers at the Tumor Clinic direct every effort to cheat cancer of a victim. If it can be

done at all they will do it. Here is the most concrete illustration of how vital are funds for the American Cancer Society."

Congress designated April as Cancer Month.

Mr. and Mrs. James Anapou of Chosen have taken an apartment in South Bay.

HARDIN SPEAKS AT CITY HALL DEDICATION FRIL

The new city hall at South Bay was dedicated Friday afternoon by County Commissioner Paul Hardin in ceremonies arranged by Mayor M. J. Hardy and members of the city council.

Mayor Hardy acted as master of ceremonies. He called attention to the fact that the Town of South Bay was incorporated in 1941 with the late A. O. Walker as first mayor. The first town council session was conducted on July 22 following the validation of the charter by popular ballot on July 7. The first councilmen were F. B. Willits, W. M. Jeffries, S. J. Fisher, O. P. Register and R. D. Hawkins.

He also cited some of the major accomplishments of the city government such as the installation of the water system, paving streets, installing lights and erection of the new city hall.

Members of the council and staff introduced included Melvin Herring, vice-mayor in charge of streets and parks; J. C. Summerlin, in charge of water and sanitation; Gordon Brown, in charge of the police department; Merline Walker, in charge of the fire department; Attorney Ralph Johnson, Fire Chief Mead Willits, Chief of Police R. C. White, City Clerk Mabel West Barstow.

Among the out-of-town visitors recognized were Sheriff John Kirk, Solicitor Harold T. Williams, both of West Palm Beach, County Commissioner Paul Hardin, Deputy Sheriff Gibb Gross, Road Supervisor J. K. Baker, Audie Corbett, candidate for constable, and others. The address and dedication of the city hall to the youth of South Bay was made by County Commissioner Hardin. Commissioner Hardin outlined briefly the growth of industry in the Glades starting with the first industry which was hunting Seminoles at \$100 a head for males, \$50 a head for females. The second industry was the sale of egret plumage, now prohibited by legislative act. The third was the fishing industry around the lake. Finally sufficient settlers arrived to start vegetable production with snap beans gradually enlarging to include numerous other vegetable products, sugar cane and finally cattle raising on an impressive scale.

The program opened with devotion by The Rev. James N. Purcell, pastor of the local Baptist Church, and concluded with the benediction by The Rev. C. J. Smyly, pastor of the Canal Point Baptist Church.

Following the program, the group adjourned to the Legion Hall where a free barbecue dinner was served through the courtesy of the members of the city council and their wives. The city hall was open for inspection throughout the ceremonies. Baskets of cut flowers and gifts adorned the counter, desks of officials and council table.

REV. PURCELL HONORED AT SURPRISE PARTY

Rev. James N. Purcell, South Bay, was honored Monday night at a surprise birthday party in celebration of his 36th birthday. Mrs. Jay Smith, Mrs. C. A. Cooper, Mrs. E. J. Cross and

Mrs. W. W. Ferguson were hostesses. Group singing and games were provided for the entertainment. Cake and soft drinks were served to Mr. and Mrs. W. W. Ferguson, Billy and Cathy, Mrs. Ole Ann Cooper, Mr. and Mrs. Julian Wood, Bobby Brown, Carlin Mizell, Mrs. Gibb Gross, Miss June Ratley, Mr. and Mrs. Merle McAllister, Mr. and Mrs. Hovas Prevatt, John, Marlyn, Jimmy and Elaine, Mr. and Mrs. S. M. McAllister, Raymond Martin, Virginia Grant, Mr. and Mrs. Wm. Blackwell and Billy, Mrs. Edna Harrell, Miss Hazel Ratley, Mr. D. N. Partain, Joyce Partain, Mrs. Cora Marlowe, Mrs. H. C. Willits, Mrs. Fannie Brown, John Ellison, John Finley, Mrs. S. W. Bryan, Mr. and Mrs. W. C. Allen, Susan Allen, Mrs. Neil Murphy, Mr. and Mrs. D. L. Shiver and children, Mr. and Mrs. Raymond Elliot, Mr. and Mrs. E. J. Cross, Mrs. Bessie Smith, Mrs. J. F. Prevatt, Mrs. V. N. Woodruff, A. J. Williams, Mr. and Mrs. Carroll Warren, Mr. and Mrs. C. A. Armstrong, Mrs. Vashli Armstrong, Mr. and Mrs. Kenneth Warren, Bob Cooper, Bobby Cooper.

MERIT COUNCIL SETS OPEN EXAMINATIONS

Open competition examination for Assistant Director, State Employment Service, local employment office managers, Field Deputies, Interviewers, Workmen's Compensation Inspectors and other positions were announced by the Florida Merit System Council this week. The date for filing applications was placed at midnight, April 18.

The position of Assistant Director of the State Employment Service existed during the war years when the agency was under the Federal government. With the expansion of activities connected with the war effort in Florida, the Industrial Commission has decided to fill the position again after an open competitive examination.

The other examinations are for entrance positions in field offices located throughout the state, and any vacancies which may occur within the coming year will be filled from the lists established by the examinations. Full information concerning minimum requirements, salaries, and nature of examinations may be obtained from local offices of the State Employment Service, or direct from the Merit System Office in Tallahassee. Applications must be made on the official form, it was stated.

Industrial Commission Closes Recruitment Phase

to its final home, Columbus, Ohio, about 15 tons of official records including veteran's pay-order cards, documentary files and canceled checks. All correspondence and such documents as were not essential as matters of record had been previously destroyed. The program ended July 25, 1949, for most veterans.

In this accumulation of official documents some 5 million separate pieces were involved. Acting as official agents for the Veterans' Administration, the Florida Industrial Commission paid \$68,492.195 to 194,270 Florida ex-servicemen, according to Chairman Raymond E. Barnes. Director of Unemployment Compensation William U. Norwood, Jr., was in charge of administration of the program.

AGRICULTURE ATTAINS GREAT IMPORTANCE IN ECONOMY OF FLORIDA

How Florida agriculture has attained its front rank importance in the economy of the state was strikingly revealed in a recent statement by Director Willard M. Field of the University of Florida Agricultural Experiment Station.

It is well that all Floridians be acquainted with the progress of their agriculture—progress achieved despite obstacles not commonly encountered in many other states.

Agriculture brought Florida farmers a gross cash income of nearly half a billion dollars last year, which, as anyone will recognize, is a very large amount of money. That wasn't all, however. Director Field pointed out that about as much money again went to firms and persons associated with agriculture—hardware dealers, meat packers, railroads and truck lines, processing plants, seed and fertilizer concerns, and others. Altogether, agriculture meant about a billion dollars in income to Florida last year.

It's a fascinating story of Florida's agricultural progress, as told by Director Field. In 1900, gross cash income to Florida farmers was \$35,000,000; in 1951, gross farm cash income was over \$400,000,000. And the crops of 1950 could not compare in quality or nutritive value with those of 1951.

The conditions and circumstances under which Florida agriculture has made such giant strides make the progress even more significant and notable. Generally, as Mr. Field explained, Florida soils are not naturally fertile, and the range of insects and plant diseases in Florida is as wide as that of any other state, wider than that of most states. In spite of comparatively infertile soil, soil deficiencies, and many troublesome plant diseases and insect pests, however, Florida agriculture has attained national and international renown.

The perseverance and forward spirit of Florida farmers, agricultural research, federal and state assistance, and the interest and efforts of many individuals, groups and agencies have been responsible for Florida's agricultural progress. While bringing out those details of progress, Director Field also sounded a note for continued striving and progress. "If we were to sit back and let Nature take its course," he said, "there would be no further development."

FLA. FARMERS SPONSOR GOOD CITIZENSHIP PLAN

Florida farmers in 52 counties are sponsoring a good citizenship program designed to get all eligible voters to go to the polls in the coming primaries, declared John Ford, executive vice-president, Florida Farm Bureau, in a statement released this week.

"There's a definite need for such a campaign in every community in the nation—a campaign which will not only encourage voters to exercise the right of the ballot, but to study the issues involved so their vote will be an intelligent one," he said.

"It's been estimated that more than fifty million Americans, for one reason or another, fail to vote.

"There is grave danger in such public apathy. It enables militant minorities to put men in office who too often use their power and influence to promote selfish interests with disregard for the good of constituents as a whole. Lack of public interest in political affairs encourages the adoption of programs and policies which may, or may not, conform to sound governmental principles.

"The Farm Bureau citizenship campaign is especially commendable since it does not deal with partisan politics. The 11,300 Florida farm families behind it seek only to get citizens to participate in the political affairs of the party of their choice.

"But above all the organization stresses the importance of individual study of issues, both local and national, so voters can intelligently appraise the merits of candidates and the platforms on which they base their pleas for support.

"A citizenship program based on such principles is sound and in keeping with the best traditions of democracy. It can do much to preserve the God-given right of the individual to 'life, liberty and the pursuit of happiness' the farm leader's statement concluded.

Caphart Amendment, Joker In Woodpile, Annals Says

The joker in the woodpile in the Defense Production Act is the Caphart Amendment. That's the opinion of Ella Annall, Director of the Office of Price Stabilization.

Annall explains that the Cap-

hart Amendment requires the OPS to allow manufacturers covered by it to obtain ceiling price adjustments based on their highest pre-Korea price, plus all cost increases up to July 26, 1951.

The price boss pointed out that, under the amendment, ceiling prices climbed \$56.2 million in two weeks.

Annall told the Senate Banking and Currency Committee on March 6, that the annual cost of ceiling price increases under the amendment had reached the three-quarters of a billion mark as of February 29. In a supplemental report later, he said the increases had risen to an estimated annual cost of \$602.2 million as on March 14.

Citing the results of a survey made by the Office of Economic Policy, Annall said that automobiles accounted for the largest increases, industrial materials and manufactured goods were next highest, followed by consumer durable goods, appliances and equipment, processed food products and grocery products.

IRIS PLANTS SPREAD BEAUTY AROUND THEM

Like many women, the iris, a genus of plants with sword-shaped leaves and showy flowers, believes that beauty should be in every part of the house.

Many irises are cultivated for their showy flowers, as the garden irises, sometimes called flags, or fleur-de-lis, and others.

Most flowers are content with beautiful petals; or, if they wish to be among the belles, they may, like the iris, add beautiful sepals, but they still regard the pistil that makes the fruit in the same light that many women regard the old kitchen range—something to use, too bad it is ugly.

Not so with the iris. Instead of leaving the pistil unadorned in the center of the flower, it has three colorful and feathery projections over the pistil which entirely hide the stamens, or pollen bearing parts. Its petals and sepals are more than colorful for they are often ruffled and tufted with colored hairs.

Many irises are cultivated with all plants that want to be beautiful, of what to do make the roots beautiful. All irises cannot solve this problem completely, but at least one iris, the German iris, has solved the problem by giving the perfume of a violet to its roots.

These violet scented roots of the German iris, under the name of orris root, have found their way into Milady's expensive face powder and perfumes as well as into her baby's mouth as orris teething fingers, which are small pieces of roots given to a baby to suck while its teeth are coming in.

Irises plants can be seen throughout Florida during the

Spring months in wet prairies; such as, Payne's Prairie, near Gainesville; Myakka River State Park, near Sarasota; Highlands Hammock State Park, near Sebring; and Gold Head Branch State Park, near Keystone Heights.

Smather's Aid Leaves For Private Practice

George C. Young, head of Senator George Smather's staff in the House and Senate for the past four years, announced today that he is leaving Washington to enter the private practice of law at Jacksonville.

Mr. Young will enter the firm of Knight, Knight, Walrath and Pegues. He is moving to Jacksonville later this month. Commenting on Young's departure, Senator Smather expressed regret at losing his aide and recalled their long years of friendship, dating from campus days at the University of Florida where they were both members of the same fraternity and debated together on a winning team.

"I am sorry to see George Young leave," Senator Smather said, "but I can appreciate his desire to return to the active practice of law which he interrupted to assist me in Washington. He has rendered valuable assistance to me and great service to the people of Florida. My irises are cultivated for their showy flowers, as the garden irises, sometimes called flags, or fleur-de-lis, and others."

A native of Daytona Beach, George Young is a graduate of Seabreeze High School. He obtained his A.B. degree from the University of Florida at Gainesville, in 1936 and his law degree in 1940. He was a member of the University debating team, president of Florida Blue Key and president of the Florida chapter of Sigma Alpha Epsilon. Besides his outstanding record in extra curricular activities, Young also achieved highest scholastic honors, being a member of Phi Beta Kappa.

After graduation he practiced law serving also as Assistant City Attorney of Winter Haven, Florida. During World War II, he served four years in the Navy, with duty in the Caribbean and the Philippines. He still holds a reserve commission in the Judge Advocate Department (legal) of the Navy.

Sen. Russell To Emphasize Agriculture In Fla. Speaking

Senator Richard B. Russell, candidate for the Democratic presidential nomination, will place heavy emphasis on the importance of agriculture to American economy during his ten-day speaking tour of Florida beginning April 26.

The Georgia Senator is in a position to know what the farm outlook and program next year is. Chairman of the Senate agriculture appropriation committee for 19 years, he has just

completed five weeks of hearings on all farm appropriations for 1953.

These hearings are the principal reason Senator Russell has been delayed in bringing his campaign for the nomination to the people.

By virtue of his long and active support of the school lunch program, which he fathered, rural electrification, soil conservation and farm support prices, Senator Russell is expected to devote a major portion of his speeches to farm subjects in Florida's rich and extensive agricultural areas where they are of primary concern.

Senator Russell's whirlwind tour of Florida will receive a tremendous "kickoff" in his home state on the night of April 25, when several thousand of his fellow Georgians will gather at a \$50-a-plate dinner in Atlanta. He will fly to Gainesville the following morning for his first appearance in the state.

The full itinerary of his Florida tour has not been announced, but it is understood it includes 25 major speeches and personal appearances at numerous special events.

Give the little lady a hand

THIS ad is addressed to husbands—husbands who've yearned for the thrill of sitting behind a broad hood packed with horsepower—and the pride of rolling down the street in a car that tells the world, "Here's a man who knows the finest thing on wheels."

But husbands have wives. And wives have been known to say, "No big cars for me. They're too hard to handle."

Well, we have an answer for that one. It's a ROADMASTER with Buick's new Power Steering! And Power Steering takes over any time the steering gets tough—works like a helping hand—reduces the effort of turning the wheel of a car at a standstill to about the same effort it takes to pick up a milk coat.

BUT out on the open highway—with a clear straight stretch before you—your hands still have command of the wheel—you can feel that sure, firm, easy and eager responsiveness that's a part of the fun of driving.

The rest of the fun is in something else that's new this year—the highest horsepower that a Buick Fireball Engine has ever delivered—and an Airpower carburetor that lets loose an extra reserve of power when needed, and still adds extra miles to your cruising range on each tankful of gas.

So we suggest a family demonstration. You'll both like the hushed and restful silence of this superbly able traveler. You'll like the harmonious beauty of its

interior, and the deep and luxurious softness of its seats.

You'll like the velvet-gloved grip of its Wide-Band brakes, and the most capacious trunk in Buick history.

You'll like the smooth surge of Dynaflow Drive, and you'll like—but why waste time talking, when you could be finding out more than we can ever tell you? How about making a date to do that right now?

Equipment, accessories, tires and models are subject to change without notice. While adequately equipped, extra cost when available. *Optional at extra cost on Roadmaster only.

SHE'S THE SAFEST LADY ON THE ROAD

With Chrysler **POWER STEERING** plus Chrysler **POWER BRAKES**

At the wheel of a new Chrysler, you have quicker, sure control of motion than you've ever had in a car. You don't imagine what it's like till you drive it! With this full-time power steering, hydraulic power does 4/5 the steering work at your gentle pull on the wheel! You also turn the wheel 1/3 less distance. And on rough roads, soft shoulders, snow or sand, "wheel fight" just doesn't happen. Your hand actually has five times the usual steering control, through every minute of every mile... with the same sure "wheel feel" at all times!

With this safer way to steer, power brakes make stops at all speeds safer and easier, too. Power from the engine "boosts" every touch of your toe. Actually you stop with up to 2/3 less foot pressure than non-power brakes. You can bring your Chrysler to a halt from full speeds in many feet less distance than other cars of comparable size can stop. See your Chrysler dealer soon. Feel for yourself why thousands of owners say Chrysler offers the two greatest advances in many years in driving safety and driving ease!

VETERANS INFORMATION AND SERVICE

By Melvin T. Dixon
State Service Officer
State-wide Service Officers' School and conference — Each year the Florida Department of Veterans' Affairs conducts a School and Conference of several days duration to carry out the provisions of the law creating this Department and to assist all Veterans' Service Officers, and those interested in affairs of veterans, to keep up to date with the many laws, regulations and procedures affecting our work. This School is designed to give the newly-appointed Veterans' Service Officers a working knowledge of their job and to give the old-timers a refresher.

In the past, two schools have been held each year, one in St. Petersburg, and the other in

Miami at the Branch Office. This year the two schools are being combined into one big State-Wide School & Conference at the Sheraton Plaza Hotel in Daytona Beach, May 8, 9, and 10th.

Every Veterans' Service Officer (Post, Chapter and County) in the State is urged to attend all 3 days of the School. Anyone else interested in the rehabilitation of our war veterans is invited to attend.

And as a climax, Mr. C. C. Horton, Director of the Department of Veterans' Affairs in the State of Alabama, will be the principal speaker at the Banquet at 7:00 P. M. Saturday, May 10th at the Sheraton Plaza Hotel.

SMATHERS

(Continued from Page 1)
had sought to prejudice against me many of my friends among the working people who belong to labor unions and presumably read this paper. Finally I wrote this column a letter.

"As an intelligent person," I wrote, "You well know that you are distorting the facts and solely for the purpose of serving the cause of 'bossism' in labor unions. You fear the truth. You know that the tyrannical hold of a certain few selfish labor bosses over their unions will be broken unless you create distrust and fear in your membership, and those who deal with the rank and file of labor as free men. In seeking to serve such a purpose you are also undermining one of our traditional freedoms. What you are really serving may not be Communism, but it is certainly not Americanism."

I kept this letter on my desk for a long time. I finally realized that the things I was writing about would not touch or be understood by this columnist. So I tossed it in the waste basket.

Several days ago I was in a midwestern city speaking on conditions in the South. I mentioned favorably, in some detail, the presidential candidacy of Senator Richard B. Russell. This discussion brought an amazing favorable response from the people in the area.

As a result I was bitterly attacked by the editor of a midwestern Negro newspaper who called Senator Russell the "race baiting" Senator from Georgia. I started to write to the Negro editor: "You, too, fear the truth. Senator Russell has made more shining contributions to race relations than have all the hierarchy of your radical Negro minority organizations. What you fear is not the welfare of the people of your race; you are afraid that the rank file of your people in the North will find out that their real friends are those who offer a moderate, common sense approach to their problems. The South, which has accomplished most for the Negro, has proved this."

I never mailed that letter. I directed it instead as a response to a letter from one of our Florida Negro citizens, a veteran group's leader. By coincidence, the mail had brought me his message, referring to the Negro's elevation in the South to "Thinking good citizens." "Thank you," he said, "For allowing us to be on your side." In my opinion, there are several morals in this story.

DEFENSE MOBILIZATION PROGRAM IS EXTENDED

The original defense mobilization program which was set for about three years has been increased due to the continuing gravity of the international situation and a reexamination of military needs by the Joint Chiefs of Staff, and will last a year longer.

At the time of the Korean invasion, a decision was made to embark on a three-year program of mobilization, at a cost averaging about \$50 billions a year. The plans included the increase of the Armed Services to 3,500,000 men; the creation of 18 Army divisions and two and a third Marine divisions; augmenting the Navy by de-mobilizing and new construction and the setting up of a 95-wing Air Force.

In the course of the past year, these sights have been raised. It is now proposed, and the new budget submitted to congress takes the change into consideration—to increase the Armed Forces by 3,700,000, to build up to 31 Army divisions and three Marine divisions, to have a Navy with 408 major combat vessels in the active fleet and 16 large carrier air groups and to enlarge the Air Force to 143 wings.

Larger Program Necessary
When the Joint Chief of Staff decided the larger military program was necessary, it was urged by some that this simply be added at once to the original three-year program and that a military budget of \$85 billions be submitted to Congress—a figure equal by itself to the

overall budget presented by the President.

Defense Mobilization officials decided officials. They pointed out that the impact of such a program on the civilian economy would be terrific. They also pointed out that in the calendar year 1952 very little additional production would be achieved even if an \$85 billion military program was adopted.

These officials decided to proceed as before, with a production and procurement program averaging out at about \$50 billions a year, but to stretch that program out for a year or a little longer. In effect, they explained, the new program calls for a longer plateau of peak production. This plateau will now run for an 18 month period from December of this year to July, 1954.

Rise in Military Spending

This decision was reached after long and detailed discussions by the highest military and civilian mobilization officials. In terms of money, it calls for a rise in military spending from the present rate of about \$3.4 billion a month to a high of about \$5.3 billion during the first quarter of 1953. This peak will be maintained until the mobilization job can reasonably be considered complete.

In adopting this policy, mobilization officials again rejected the proposal of speeding up the program and trying to do the mobilization job in one mighty but comparatively short effort.

This, they explained, would amount to total mobilization—a situation which they believed the nation should not be pushed to at this stage of world affairs.

Total mobilization, these officials contend, would disrupt the civilian economy, close down large segments of industry and business, throw millions out of work, and produce large quantities of obsolete and obsolescent weapons for which there is no immediate use.

Original Program Lengthened
Mobilization officials emphasized that they are not altering the original three-year plan to any marked degree, except to let it make provision for the added strength which top military and civilian chiefs have decided is necessary for the security of the nation.

Under the new program, there will be no sudden and violent upswing in military production, with a corresponding disastrous downsizing in the civilian economy. It means that the nation is simply going to maintain a production peak planned.

CONTROL OF LIVESTOCK PESTS IS EMPHASIZED BY EXTENSION WORKER

Prepare now to protect your herd from insect pests during the late spring and summer, the University of Florida Agricultural Extension Service advised Florida graziers recently.

"The past winter was mild and more than the usual number of insect pests were able to survive, which means that there probably will be more insects to prey on livestock during the summer unless insecticides are applied promptly and efficiently," Dr. Oliver F. Goen, Extension animal husbandman, pointed out.

Insect pests transmit diseases and, in very large numbers, may severely weaken cattle by their blood-sucking and prevent them from grazing and making satisfactory gains.

To prevent such conditions and losses, Dr. Goen advised cattle owners to spray their herds with DDT, BHC, chlordane, or lindane — insecticides that have proven effective against horn flies, mosquitoes, and other pests. He recommended spraying equipment for thorough coverage and for saving time and labor. "Now is the time to see that equipment is in good operating condition and to obtain insecticides in order to be ready for spraying the herd the first time in a couple of weeks," the Extension worker said. Herds should be sprayed periodically in the summer and early fall.

CANCER RESEARCH AWARD GIVEN TO U OF F

An award of \$2,000 for cancer research to the University of Florida was presented this week by Dr. Charles C. Lande of Boston, President of the American Cancer Society and internationally known surgeon. The presentation was accepted by Dr. Francis C. Ray, Director of the Cancer Laboratory of the University of Florida.

The grant-in-aid is part of a total of nearly \$1,800,000 awarded for research projects and fellowships recommended by the Committee on Growth of the National Research Council which advises the Society on this aspect of its program.

LAST WEEKS CRITICAL IN GUBERNATORIAL RACE

The governor's race still has quite a long way to go, with the last few weeks being the critical period, of course. The situation can change drastically prior to the first primary on May 6, but here is the present estimate of each candidate's strength, according to the "experts."

McCarthy seems to be in the lead with a strong organization well distributed in all parts of the state. His greatest following seems to come from the Jacksonville area where he expects his largest majority.

Adam's greatest strength in voting power seems to be in North Florida. Prospects are good on the East Coast in sections that are against the proposed turnpike.

Odham is gaining rapidly with a strong vote coming from

Tampa, St. Petersburg, Miami and Central Florida where his "talkathon" went over in such a big way. His following outside the area covered by his sensational radio marathons, Odham's grass root strength is difficult to gauge.

Spencer is still virtually unknown. The possibilities of Spencer picking up as many votes as the others seems remote at this date.

As a guide to advertisement placement, the Florida State Chamber of Commerce stated recently after completion of last year's survey.

Area totals are reported in this week's business review of the State Chamber's research and industrial division. The eleven Southeastern States, excluding Florida, contributed 49 per cent of the registrants.

From the Middle Atlantic States (New York, New Jersey, Pennsylvania) came 19 per cent of the registrants and 15.5 per cent came from the East North Central Group (Ohio, Indiana, Illinois, Michigan, Wisconsin).

Latin American countries contributed 3.5 per cent as did the six New England States and the Southwest (Arkansas, Louisiana, Oklahoma and Texas).

Three per cent called the West North Central States "home" and 2.5 per cent came from the Far Western States. Foreign countries contributed half of one per cent.

Since the last survey was made a d e, 1948, an increasing number of visitors have come from the South and Southwest to Florida from the Latin American countries and from

12 sectional winners, six of whom will be selected to receive a national award of a \$300 college scholarship.

The program is supervised by the Cooperative Extension Service. County Extension Agents will furnish complete information.

er, James R. Byrd, second vice commander; Earl T. Harris, post adjutant; Harvey Poole, finance officer; Ennake Morris, chaplain; Ulysses J. Carr, sergeant-at-arms.

The post was started in 1947 but became inactive for a short period. It is active again and is sponsored by Everglades American Legion Post 20 here.

High School Band will present in outdoor concert Sunday, May 27, 3:30 p. m., on the grounds adjacent to the main school building. Many new musical selections will be featured, as well as several old favorites.

Mr. M. M. Hamilton, band director, promises an afternoon of grand entertainment. The public is invited to attend.

State Officials Visit Agriculture Department

Mr. C. C. Cunningham, executive secretary for the State NFA Association, evaluated the work of the Agriculture Department Friday, April 18. He was very much impressed over the improvements that have been made during the past twelve months. However, he left several recommendations for the continued improvement of the department.

Saturday, April 19, Mr. Floyd L. Northrup, State District Supervisor, also visited the department. He conferred with Mr. J. J. Holliday, vocational agriculture teacher, on many new trends that he felt would help to improve next year's program.

The annual NFA-NHA banquet is scheduled for Friday, May 2. This promises to be one of the best sponsored by the joint chapters of which Mr. J. J. Holliday and Mrs. E. B. Moore are advisors.

The convention headquarters was at Booker T. Washington High School.

Much interest aroused the delegates and visitors during the presidential race between Dr. G. T. Wiggins, a principal from Pensacola and Mr. L. B. Land from Daytona Beach. In the final outcome Dr. G. T. Wiggins had the greater number of votes and is now the president of our F.S.T.A. for a period of 3 years.

The time has come for everyone in our neighboring communities to get ready to see the show of the year on the 25th. The East Lake district is presenting their annual revue on Friday night, April 25th at the Show Boat Theatre in Palooka. There will be lots of laughter and thrills for you, if you travel from Dixie To Broadway.

Qualifications Loosen For Women Enlistees In Army

Women who were previously ineligible for enlisting in the Women's Army Corps may now be eligible, according to information received from the Miami Army and Air Force Recruiting Station.

The Central States Florida women who do not complete high school have applied for enlistment in the WAC.

Lieutenant Marion E. Carlson took the oath of office at that office pointed out, "but under the old regulations, we could not accept them. Now the South and Southwest Florida State Board of Education General Educational Development Test and, if found to have the knowledge equivalent to that of a high school graduate, may be accepted. This change opens the doors to a greater career for many women who could not be considered for military service under old regulations."

"The WAC and the WAF need thousands of additional members. Each woman who joins frees one additional man for duties which cannot be performed by women," Lieutenant Carlson explained. "The shortage of physically fit men is extreme and American women must be made to realize that they, too, must serve their country."

Lieutenant Carlson pointed out that women receive the same high pay as do the men in the Services, that they are afforded equal opportunities for advancement, for study and recreation, and that few women would ever have a chance to see much of the world unless they did so while in the Armed Forces.

NEGRO NEWS

EVERGLADES HIGH BAND SCHEDULES CONCERT SUN.

The Everglades Vocational High School band will present the first band concert of the year at 5 p. m. Sunday behind the school at Okeechobee Camp under the direction of Marion Hamilton.

The concert, which will be open to the public, is the second in a series of open programs given by the 65-piece band.

COLORADO LEGION POST IS ACTIVATED SUNDAY

Crowds packed the Everglades Legion Post 20 hall here Sunday afternoon for reactivation ceremonies and installation of officers of William Mayes Post 202, the only colored legion post in the western section of the county.

Highlight of the program was the performance of the Seminole Drum Corps of Post 38, Ft. Lauderdale. The champion corps marched in the parade preceding the program and furnished music for the program in addition to the Everglades Vocational High School band.

A. J. Ryan, national committeeman of the welfare committee, Dania, was the principal speaker and installing officer. Also speaking on the program were Lou Dunkin, Ft. Lauderdale, Ninth District Commandant; M. Gaskin, Mr. Allen and Mr. Burton, chairman of colored veterans' affairs.

Installed were: Haywood Campbell, commander; James G. Brown, first vice commander.

New Bethel Baptist Church

Rev. W. Perrie, Pastor

Sunday School was opened at the usual hour with Supt. Sandy Kendall in charge. The subject of lesson was, "Jesus and the Law." The lesson was reviewed by the pastor.

Morning worship began with a spiritual devotion conducted by Sister Annie Mae Euer. The semi or choir rendered song service. Then Rev. W. W. Green of West Palm Beach delivered a very touching sermon on "Life." At 5 p. m. Mrs. Susie O'Neal was honored with a surprise birthday party at the home of her mother, Mrs. Rosa Hoot. She received many beautiful gifts. Her face was all full of smiles when they were presented by Mrs. Ora D. Taylor.

Everglades Vocational High Lake Shore Elementary School

Plans Completed for May Day Festival

The committee for May Day activities has completed its plans for the annual May Day Festival, which will be held May 1. Each homeroom grade 7-12 has selected one candidate for its representative: 7th B, Marnel Lou Bess; 7th B, Frances Sheffield; 7th C, Mattie M. Sparks; 8th A, Mary Johnson; 8th B, Wilma Cosby; 9th, Gladys Ellison; 10th, Esther Lee; 11th, Dena Grimsley; and 12th, Annie P. Smith. The queen will be chosen by popular vote. The person receiving the highest number of votes will reign queen of May; the two persons receiving the second and third highest number of votes will be her attendants. The princess will be selected from the Intermediate Department and the flower girl, from the Primary Department. Drills, calisthenics, and creative dancing will also be featured on the program.

Ed Lake

Didn't Just Talk On Juvenile Delinquency He Acted

One of the worst juvenile problems that existed in West Palm Beach before the war was the practice of a few second hand dealers buying articles from children at a fraction of their value, and thus encouraging kids to take more and more things that did not belong to them. It grew to alarming proportions.

Within one year after his taking of office as Municipal Judge, the following ordinance was conceived by Judge Lake, drafted by him, presented by him and its enactment into law obtained by him, and without compensation to him. His duties as Judge did not call for this additional service.

With the wholehearted cooperation of the Police Department, especially Detectives McGriff and Conyers, and two sufficiently severe court sentences, THIS EVIL WAS BANISHED FROM THE COMMUNITY. The ordinance worked, because offending dealers knew that any child, ultimately caught, would tell of all past sales to them, and that they could not pay off jail sentences.

This law yet protects the children of West Palm Beach as sections 34.3 to 34.5, inclusive 1945 West Palm Beach Code. The entire ordinance is set forth below with underscoring added:

Section One. No dealer in second hand automobiles, furniture, jewelry, clothing or other second hand goods, wares or merchandise, operating within the limits of the City of West Palm Beach in Palm Beach County, Florida, shall purchase or acquire any automobile, furniture, jewelry, clothing, or other goods, wares or merchandise from any person under the age of twenty-one years, without obtaining the written authorization of the father or mother or legal guardian of such minor at the time of such purchase or acquisition, authorizing such dealer to make such purchase or acquisition and fully and accurately describing such goods, wares or merchandise or materials then being so purchased and acquired by such dealer from such minor and giving the name, and address of such father, mother or legal guardian of such minor, and further unless said written authorization be executed personally by such father, mother or legal guardian of such minor in the presence of and witnessed by such dealer at his place of business at the time of such purchase or acquisition from such minor by such dealer as aforesaid.

Section Two. Every such dealer shall within twenty-four hours of any such purchase or acquisition by him from any such minor of any automobile, furniture, jewelry, clothing, or other goods, wares, or merchandise, file with the Chief of Police of said City a report of such purchase or acquisition, which report shall be in writing under the oath of such dealer and subscribed to by such dealer and shall fully and accurately describe such automobile, furniture, jewelry, clothing, or other goods, wares or merchandise, so purchased or acquired from such minor and shall further state fully therein the time of such purchase or acquisition and the name, address and age of such minor together with the name and address of his father, mother or legal guardian executing said authorization as aforesaid. Provided that such reports herein required may be filed with the Chief of Police together with and incorporated in the daily verified reports filed by such dealers with the Chief of Police as required by Ordinance Number 254 of this City, passed and adopted February 15th, 1933.

Section Three. If such dealer be a corporation, then such corporation shall file with the Chief of Police of said city a written designation which shall be in writing under the seal of such corporation and executed by its president and secretary, which designation shall state the name of the officer, agent, servant or employee designated by such corporation to make and transact its purchases and acquisitions from minors in said city, and no more than one person shall be so designated therein. No officer, agent, servant or employee of any such corporate dealer shall purchase or acquire from any minor any automobile, furniture, jewelry, clothing or other goods, wares or merchandise unless such officer, agent, servant or employee shall have been designated by such corporate dealer in the manner aforesaid, and shall have consented in writing in the presence of and to the Chief of Police of said city to such designation; and all requirements, provisions, and prohibitions of this ordinance shall apply with full and equal force to the person so designated and so consenting to such designation.

Section Four. No such dealer shall make any purchase or acquisition from a minor on Sunday or at night.

Section Five. Any person who shall violate any requirement, provision, prohibition or section of this ordinance, shall, upon conviction thereof, be punished by a fine not exceeding five hundred dollars or by imprisonment in the city prison for a period not exceeding sixty days, or by both such fine and imprisonment.

Elect a Juvenile Court Judge of VIGOR, THOUGHT, AND A-C-T-I-O-N! Elect a County Judge who will PROTECT Inheritances and Property Rights of Widows, Children and other heirs.

THE WINNERS at the Southeast Florida Livestock Show held at the Everglades Experiment Station recently are pictured in these show highlights.

Pictured at the top is the steer bought by Dr. R. V. Allison, director of the Everglades Experiment Station, at the FFA and 4-H Club fat cattle sale. He paid \$215 for the steer show here with his two daughters, Karen and Gail.

Second from the top is the prize winning bull from Vel Va Haven Farms, Delray Beach, owned by V. V. Cook. There's a lot of cattle for the boy here as Don Deadwyler of Cornwell, champion of the 4-H Club and FFA junior showmanship competition, shows a heifer and "Billy Boy," champion junior yearling bull, in the middle picture.

Glen Scambler, FFA boy from Ft. Pierce, shows his Angus, runner-up in the 701-900 pound class steer competition in the second picture from the bottom to the Food Fair buyer. Pictured at the bottom is Dempsey King, Ft. Pierce FFA, showing his grand champion Hereford steer in the 900 pound class. V. V. Cook presented him with a wrist watch.

Co. Judges Decisions Can Affect All Citizens

Decisions of the County Judge may easily affect every citizen of Palm Beach County, according to County Judge Richard P. Robbins, candidate for reelection to the office he has served for more than 28 years. With a record of only three reversals by higher courts in more than 9,025 probate cases involving millions of dollars; recognition by State and National officials for his work on juvenile delinquency proceedings, Judge Robbins has been returned to office either without opposition or by a large majority since his original appointment.

And, adding to the already great responsibilities of the judgeship, is a new law passed by the 1951 legislature, which gives the County Judge, judge of the County, juvenile delinquency over personal affliction with tuberculosis, and the power to confine them to State hospitals until cured.

As an authority on juvenile delinquency, Judge Robbins was one of six judges and 10 attorneys to draft the new juvenile court law adopted by the 1951 legislature after the people had approved a constitutional amendment in 1949. At that time, and control of juvenile delinquency Judge Robbins was appointed by U. S. Attorney General Tom Clark as a member of the Juvenile Court panel and he was also a member of the committee to draft Uniform Guardianship Procedure whose recommendations were adopted.

The County Judge has jurisdiction over guardians and wards, over settlement of all estates, is responsible for holding sanity hearings and the landlord and tenant cases in the County Court often involve important leases, it was pointed out.

Judge Robbins sponsored construction of the County Chil-

dren's home and the "County Home for Colored Children and was acting chairman of the West Palm Beach Housing Authority.

A native of Florida, he was educated in the state and has been admitted to practice in the Supreme Courts of the United States and of Florida. He served in both World Wars as a pilot, and has held a number of offices and committee assignments in the Florida Bar Association, National Aeronautics Association and University of Florida alumni association.

REPUBLICANS TO PLAN FOR STATE CONVENTION

Republican leaders from all parts of the State assembled in Orlando, Tuesday, April 15th, 1952, and mapped plans for holding a State Convention to elect Delegates to the National Republican Convention in Chicago, July 7th, 1952, as a protest against the action of the Florida Republican State Executive Committee, which has appointed 18 Delegates and 188 alternates to represent Florida in the Convention.

The dissident group is headed by Wesley Garrison of Miami, who was elected permanent chairman. Other officers were elected and installed. The plan of procedure adopted provided for the appointment of a Temporary Chairman for each of the Eight Congressional Districts in the State and these Chairmen were authorized to call District Conventions composed of registered Republicans from each county in their respective Districts. The District Conventions to be held on May 10th, 1952 to elect two National Convention Delegates from six of the Districts and one each of the other two, and also to elect Delegates to a State Convention to convene in Orlando on May 24th, 1952, when four Delegates-at-Large to the

National Republican Convention are to be elected.

In order that representation in the State Convention might be proportioned to the registered Republicans in each District provision was made that each District Convention should elect two Delegates-at-Large and one additional Delegate for each 1,000 registered Republicans and major fraction thereof in said District.

The District Convention will be called to order by the Chairman designated and the organization perfected by electing permanent officers. The required legal notices of the District Conventions will be published not later than April 25th, 1952 in newspapers authorized to carry legal advertisements.

LIBEL SUIT MIXES FLA. HISTORY, POLITICS

Century old historical questions mingled with present day Florida politics were brought out in a libel suit against the Saturday Evening Post brought by former State Senator Walter B. Fraser for \$750,000 damages.

First witness was State Senator Verle A. Pope, St. Augustine, who stated that he and Fraser were "politically unfriendly" and he advised Post writer Leigh White to seek information about Fraser elsewhere.

The Post story appeared in 1949 and expressed doubt as to the authenticity of some of St. Augustine's historical landmarks which Fraser is curating.

Another witness, Carver Harris, business manager of the St. Augustine Historical Society which operates the Oldest House, testified about the "Oldest Wooden Schoolhouse" which Fraser now owns.

Harris said that his father acquired the building about 1930 and opened it to the public as the "Oldest Wooden Schoolhouse" in the United States.

The Post article said there was no evidence the building had been used as a schoolhouse prior to the Civil War. Harris said the building was vacant when his father acquired it. He said he understood it had been used as a photographic studio and recalled seeing a sign on it which said it was the "Oldest Frame Building."

You'll use years for yardsticks!

You'll find years make the best yardsticks for measuring value received in a new International Truck.

You get years of new-truck stamina, lower operating and maintenance costs, dependability. You get years of driving comfort, too, with International, the truck that makes tough hauls easier and more profitable.

If that sounds like a lot to expect from a truck, why not stop in and make us prove it?

Ask about these great International Truck exclusives:

- All truck engines—built in the world's largest truck engine plant.
- The "roomster," most comfortable cab on the road—the Comfy-Vision Cab.
- Supersteering system—more positive control, easier handling and 37° turning angle.
- The same traditional truck toughness that has kept International in heavy duty truck sales for 20 straight years.
- The truck engineered for your job... 115 basic models, from 16-ton to 80,000 lb. GVW ratings.
- Largest exclusive truck service organization.

International L-160 series offers 172 to 172 in. wheelbases, GVW ratings from 14,330 to 16,500 lbs.

**BIG NEW POWER PLANTS
HELP KEEP ELECTRIC SERVICE
THE BIGGEST BARGAIN
IN YOUR FAMILY BUDGET!**

1952-62 ENGINEERING FORECAST OF FPLC CO. SYSTEM POWER REQUIREMENTS

Florida is growing faster than the nation, and progressive folks in Florida are using more electricity than folks in most other places. That means a big job for us, and a big opportunity, too! New, modern plants and equipment squeeze more kilowatt hours out of each barrel of fuel oil. "Mass production" economies of big plants and a widespread system result in economical operation for the lowest possible rates for you!

PUSHING AHEAD! Engineers forecast the demand for power will be tripled in the next 10 years... that \$332,000,000 will be needed for expansion. We're spending \$50,000,000 for 1952-3 construction... planning ahead for the rest... coming to assure plenty of electric power for
